NMB BANK LIMITED

Notes to Interim Financial Statements

For the interim period ended 32 Asar, 2082

1. General Information

1.1 **Reporting Entity:** NMB Bank Limited (hereinafter referred to as "the Bank") is a limited liability company domiciled in Nepal. The registered office of the Bank is G.P.O. Box 11543, Babar Mahal, Kathmandu, Nepal. The Bank has a primary listing in the Nepal Stock Exchange Limited, the only Stock Exchange in Nepal.

The Bank carries out commercial banking activities in Nepal licensed under the Bank and Financial Institutions Act, 2006 as Class "A" financial institution in May 2008 and has been operating in the Nepalese Financial market for over twenty six years.

1.2 Subsidiary:

- a. NMB Capital Ltd. (NMBCL) is a 100% subsidiary company of the Bank and was incorporated on September 17, 2010 as a public limited company as per the Companies Act 2063. It is into Merchant and investment banking licensed by Securities Board of Nepal under the Securities Businessperson (Merchant Banker) Regulations, 2008.
- b. NMB Laghubitta Bittiya Sanstha Ltd. (NMBMF) is incorporated as a public limited company under Companies Act, 2063 and licensed by Nepal Rastra Bank as "D" Class financial institution having Nation Wide working area to operate its microfinance program under Bank and Financial Institution Act 2006. As at the interim period ended date, the bank holds 51% controlling interest in the NMBMF.
- c. N.M.B. Securities Limited is a 100% subsidiary company of the bank with incorporation on 21 June 2021 and has started the share brokerage business

The interim period of all of the subsidiaries is same as that of the Bank.

1.3 "Group" represents The Bank and the subsidiaries.

2. Basis of preparation

The Interim Financial Statements have been prepared in accordance with the Nepal Accounting Standard (NAS)-34 "Interim Financial Reporting" published by the Nepal Accounting Standards Board (NASB) and pronounced by The Institute

of Chartered Accountants of Nepal (ICAN) along with Directives, Guidelines and Circulars issued by Nepal Rastra Bank (NRB), and other regulatory bodies. The disclosures made in the condensed consolidated interim financial information have been limited based on the format prescribed by Nepal Rastra Bank and should be read in conjunction with the Bank's last annual financial statements. They do not include all of the information required for a complete set of Nepal Financial Reporting Standards ("NFRS") financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Bank's financial position and performance since the last annual financial statements. The financial statements have been prepared in accordance with the historical cost convention with some exceptions described in the relevant sections.

The interim cash flow statement has been prepared using the direct method whereby operating profit is adjusted for effects of non-cash transactions such as depreciation and loan losses. The cash flow is classified by operating, investing and financing activities.

The Condensed Consolidated Interim Financial Statements comprise of:

- Condensed Consolidated Statement of Financial Position,
- Condensed Consolidated Statement of Profit or Loss.
- Condensed Consolidated Statement of Other Comprehensive Income,
- Condensed Consolidated Statement of Changes in Equity,
- Condensed Consolidated Statement of Cash Flows and
- Statement of Distributable Profit
- Notes to Interim Financial Statements
- Ratios as per NRB Directive

3. Statement of Compliance with NFRS

The Financial Statements of the bank which comprises components mentioned above have been prepared in accordance with Nepal Accounting Standards comprising of Nepal Financial Reporting Standards and Nepal Accounting Standards (hereafter referred as NFRS), laid down by the Institute of Chartered Accountants of Nepal and in compliance with the requirements of the Companies Act, 2063 and generally Accepted Accounting Principles and Directives, Circulars and Guidelines issued by Nepal Rastra Bank.

4. Basis of Consolidation

In preparing the Consolidated Interim Financial Statement, the financial statements of the Bank and the Subsidiary are combined line by line by adding together Assets, Liabilities, Equity, Income and Expenses. The consolidated financial statements have been prepared in accordance with Nepal Financial Reporting Standards 10 "Consolidated Financial Statements".

Para 8 of NFRS 10 outlines three conditions to be fulfilled in order to establish control: (a) Power over the investee;

- (b) Exposure, or rights, to variable returns from its involvement with the investee; and
- (c) The ability to use its power over the investee to affect the amount of the investor's returns

Non-Controlling Interest (NCI) refers to ownership of a company, which does not give the shareholder the control of the company.

5. Materiality and Aggregation

In compliance with Nepal Accounting Standard - NAS 01 (Presentation of Financial Statements), each material class of similar items is presented separately in the Financial Statements. Items of dissimilar nature or functions too are presented separately unless they are immaterial. Financial Assets and Financial Liabilities are offset and the net amount reported in the Statement of Financial Position only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liability simultaneously. Income and expenses are not offset in the Statement of Profit or Loss unless required or permitted by an Accounting Standard.

6. Going Concern

The Board of Directors have made an assessment of Bank's ability to continue as a going concern and are satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, the board is not aware of any material uncertainties that may cast significant doubt upon Bank's ability to continue as a going concern and they do not intend either to liquidate or to cease operations of it. Hence, the Financial Statements are continued to be prepared on the going concern basis.

7. Business Combination

The Group accounts for business combinations using the acquisition method when control is transferred to the Group as per NFRS 3. The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. The Bank had combined the business as per Merger and Acquisition Bylaws 2073 issued by central bank during the previous years. However, after the issuance of the Explanatory Note Accounting for Business Combination dated 2079.04.15, the Carve out no. 3 and 4 on NFRS 3: Business Combination issued by ICAN on 2077.07.25 stands withdrawn and accordingly, the goodwill has been recognized as per the said guidelines in FY 2021/22.

8. Foreign Exchange Transactions

Assets and liabilities denominated in foreign currencies as on the balance sheet date have been converted into local currency at mid-point exchange rates published by Nepal Rastra Bank after adjustment for effective trading rate.

Net difference arising from the conversion of foreign currency assets and liabilities is accounted for as revaluation gain/loss under Other Operating Income.

Income realised from the difference between buying and selling rates of Foreign

Exchange is accounted for as trading gains and shown under "Net Trading Income".

9. Functional and presentation currency

The Interim financial statements are presented in Nepalese Rupees (NPR), the functional currency of Group entities. There is no change in the Group's presentation and functional currency during the period under review. All figures in the accounts are presented in thousand.

10. Significant accounting judgements and estimates

As part of the process of preparing the interim financial statements in conformity with NFRS, the Bank's management is required to make certain judgements, estimates and assumptions that may affect the Bank's profits, its financial position and other information presented in the Report. These estimates are based on available information and the judgements made by the Bank's management. Actual outcomes may deviate from the assessments made, and such deviations may at times be significant.

The Bank uses various valuation models and techniques to estimate the fair values of assets and liabilities. There are significant uncertainties related to these estimates and these estimates are highly dependent on market data, such as the level of interest rates, currency rates and other factors. The uncertainties related to these estimates are reflected mainly in the statement of financial position. The bank undertakes continuous development in order to improve the basis for fair value estimates, with regard to both modelling and market data. Changes in estimates resulting from refinements in assumptions and methodologies are reflected in the period in which the enhancements are first applied. Judgements and estimates are also associated with impairment testing of loans and claims.

The significant judgments made by Management in applying the Bank's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements as at and for the year ended 31 Asar 2081.

11. Basis for classification and measurement

The interim financial statements have been prepared on the historical cost basis, except for:

- As per NFRS 9 "Financial Instruments", Investment Securities (investment in equity shares and mutual funds) are measured at fair value.
- As per NAS 40 'Investment Property' (land and building acquired as non-banking assets) are measured at fair value.
- As per NAS 19 "Employee Benefits", Liabilities for employee defined benefit obligations and liabilities for long service leave are measured at fair value.

The Bank classifies its financial assets into the following categories: those measured at amortised cost, and those measured at fair value. This classification depends on both the contractual characteristics of the assets and the business model adopted for their management.

Financial assets at amortised cost

An investment is classified at "amortised cost" only if it is not designated as a FVTPL and both of the following criteria are met: the objective of the Bank's business model is to hold the assets in order to collect the contractual cash flows, and the contractual terms of the financial assets must give rise on specified dates to cash flows that are only payments of principal and interest on the principal amount outstanding.

If either of the two criteria above is not met, the asset cannot be classified in the amortised cost category and must be classified at fair value.

Determination of fair value

The fair value of financial instruments, including derivative instruments that are traded in a liquid market, is the bid or offered closing price on the balance sheet date. Where the fair values cannot be derived from active markets, they are determined using a variety of valuation techniques, which include the use of mathematical models. The input to these models is taken from observable market data where possible. Fair values are measured using different valuation models and techniques. This process involves determining future expected cash flows, which can then be discounted to the balance sheet date. The estimation of future cash flows for these instruments is subject to assumptions on market data, the fair value estimate may therefore be subject to variations and may not be realisable in the market. Under different market assumptions, the values could also differ significantly.

The Bank measures fair values using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements:

Level 1: Quoted market prices (unadjusted) in an active market for identical instruments.

Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments, quoted prices for identical or similar instruments in markets that are considered less than active or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and where the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued

based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

12. Financial assets and financial liabilities

Financial assets refer to assets that arise from contractual agreements on future cash flows or from owning equity instruments of another entity. Since financial assets derive their value from a contractual claim, these are nonphysical in form and are usually regarded as being more liquid than other tangible assets.

Financial liabilities are obligations that arise from contractual agreements and that require settlement by way of delivering cash or another financial asset. Settlement could also require exchanging other financial assets or financial liabilities under potentially unfavourable conditions. Settlement may also be made by issuing own equity instruments.

13. Recognition and de-recognition of financial instruments

Financial instruments are recognised in the statement of financial position on a settlement date basis, except for derivative instruments, which are recognized on a trade date basis.

A financial asset is derecognised when the contractual rights to the cash flows from the financial asset expire.

A financial liability is derecognised from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expires.

14. Offsetting

A financial asset and a financial liability are offset and the net amount recognised only where there is a legal right to do so and the intention is to settle on a net basis.

15. Cash and cash equivalents

Cash and cash equivalents comprise monetary assets and placements with original maturities of three months or less, calculated from the date the acquisition and placements were made.

Cash and cash equivalents are classified as financial asset and are measured at amortized cost in SoFP.

Restricted deposits are not included in cash and cash equivalents. These are measured at amortized cost and presented as a line item on the face of consolidated Statement of Financial Position (SoFP).

16. NFRS 9 'Financial Instruments'-Impairment

Expected Credit Loss Model (ECL) of Impairment

The Expected Credit Loss (ECL) model is a forward-looking model. The ECL

estimates are unbiased, probability-weighted, and include supportable information about past events, current conditions, and forecasts of future economic conditions. Under the general approach, NFRS 9 recognizes three-stage approach to measure expected credit losses and recognized interest income.

Stage 1: 12-month ECL – No significantly increased credit risk Financial instruments that have not had a significant increase in credit risk since initial recognition require, at initial recognition a provision for ECL associated with the probability of default events occurring within the next 12 months (12-month ECL). For those financial assets with a remaining maturity of less than 12 months, a Probability of Default (PD) is used that corresponds to the remaining maturity. Interest will be calculated on the gross carrying amount of the financial asset before adjusting for ECL.

Stage 2: Lifetime ECL – Significantly increased credit risk in the event of a significant increase in credit risk since initial recognition, a provision is required for the lifetime ECL representing losses over the life of the financial instrument (lifetime ECL). Interest income will continue to be recognized on a gross basis.

Stage 3: Lifetime ECL – Defaulted Financial instruments that move into Stage 3 once credit impaired and purchases of credit impaired assets will require a lifetime provision. Interest income will be calculated based on cash basis.

	Stage 1	Stage 2	Stage 3
Nature	12 month expected credit loss	Lifetime expected credit loss	Lifetime expected credit loss
Risk	No significant risk since initial recognition	Significant credit risk since initial recognition	Credit impaired (With objective evidence of impairment)
Nature	Performing	Underperforming	Non-performing
Interest Revenue	Effective interest on gross carrying amount	Effective interest on gross carrying amount	On Cash Basis

According to the NFRS 9 Expected Credit Loss (ECL) Related Guidelines, 2024 issued by NRB, the Bank has recognized impairment on credit exposures based on the higher of total ECL calculated as per NFRS 9 and existing regulatory provisions in the Unified Directives.

The bank has followed NRB Interest Recognition Guidelines (with amendments) for recognition of Interest Income and Fees Income i.e. interest income based on coupon interest rate on principal outstanding for all financial assets (accrual basis) for Stage 1 and 2 and based on Based on cash basis approach (incremental) for FY 81/82.

17. Derivative assets and derivative liabilities

Derivative assets and derivative liabilities (derivatives) create rights and obligations that have the effect of transferring between the parties to the instrument one or more of the financial risks inherent in an underlying primary financial instrument. However, they generally do not result in a transfer of the underlying primary financial instrument on inception of the contract, nor does such a transfer necessarily take place on maturity of the contract.

Derivative financial instruments meet the definition of a financial instrument and are accounted for as derivative financial asset or derivative financial liability measured at FVTPL and corresponding fair value changes are recognized in profit or loss.

18. Grant

Grant is recognised in profit or loss on a systematic basis over the periods in which the entity recognises as expenses the related costs for which the grants are intended to compensate. Income approach is followed in recording grant income. Grants related to the assets including non-monetary grants at fair value is presented in the statement of financial position by setting up Deferred Grant Income. Grants related to income are presented as part of profit or loss under other income.

19. Deposits from customers and BFIs and Debt Securities

These are classified as financial liabilities measured at amortized cost.

20. Revenue recognition

Revenue is recognized only when it is probable that the economic benefits associated with the transaction will flow to the entity. In some cases, this may not be probable until the consideration is received or until an uncertainty is removed.

Revenue is derived substantially from banking business and related activities and comprises net interest income and non-interest income. Income is recognised on an accrual basis in the period in which it accrues and Interest Income Recognition Guidelines (with amendments) is followed for this. The Group applies NFRS 15 – Revenue from Contracts with Customers in the accounting of revenue, unless otherwise stated.

a. Net interest income

Interest income and expenses are recognised in profit or loss for all interestbearing instruments on an accrual basis using the effective interest method. The effective interest rate is the rate that exactly discounts the expected estimated future cash payments and receipts through the expected life of the financial asset or liability.

b. Fees and commission income

Fee income is earned for diverse ranges of services provided by the bank to its customers. Fee income arises on the execution of a significant act completed or from provision of services. Loan documentation fee, loan management fee, consortium fee, commitment fee, card issuance and renewal fees, prepayment and swap fee, remittance fee, investment banking fee, asset management fee, brokerage, commission on letter of credit, commission on guarantee, locker rental income, etc. has been presented under this heading. The fees and commission income that are integral to the effective interest rate on the financial assets are included in the measurement of the effective interest rate and shall not be recognized as income, however immaterial amount can be recognized in profit or loss account as income.

From FY 2083/84, EIR shall be applicable for all financial assets except old term loan (Old term loan refers to loans booked up to Asar end 2083). Therefore, as per Interest Income Recognition Guidelines (With Amendment) has been followed and income has been recognized based on Gross Interest Rate.

c. Dividend Income

Dividend is recognised as income when the right to receive the dividend is established. For bonus shares, the numbers of shares alone are increased without any change in the cost price of shares.

d. Net Trading Gain

The Group presents all accrued interest, dividend, unrealized fair value changes and disposal gains or losses in respect of trading assets and liabilities under this head. The Group also presents foreign exchange trading gains or losses arising on foreign exchange buy and sell transactions under trading income.

21. Discounting

Discounting has been applied where assets and liabilities are non-current and the impact of the discounting is material.

22. Significant changes from the policies adopted in the past

According to the NFRS 9 Expected Credit Loss (ECL) Related Guidelines, 2024 issued by NRB, the Bank has recognized impairment on credit exposures based on the higher of total ECL calculated as per NFRS 9 and existing regulatory provisions in the Unified Directives.

23. Property, plant and equipment (PPE) and Intangible Assets

a. Property, plant and equipment and Intangible assets (software) are stated at cost less accumulated depreciation (Cost Model)

b. Land is not depreciated. Depreciation of others is charged to Statement of Profit and Loss on Straight Line method over the useful life of those assets. The estimated useful life of the assets are as follows:

Assets	Estimated Life	Rate of Depreciation
Building	40 years	2.5%
Office equipment	7 years	14.28%
Computers	5 years	20%
Furniture & Fixtures	7 years	14.28%
Vehicles	5 to 7 years	20%/ 14.28%
Intangible Assets/software	5 Years	

- c. Leasehold improvements are capitalised at cost and amortised over period of lease.
- d. Depreciation on property, plant and equipment sold or disposed off during the year is charged up to the date of sales and gain or loss on the sales transaction is accounted for.
- e. Assets with a unit value less than NPR 10,000 are expensed-off during the year of purchase irrespective of its useful life.

24. Investment property

Investment properties are land or building or both other than those classified as property and equipment under NAS 16 – "Property, Plant and Equipment"; and assets classified as non-current assets held for sale under NFRS 5 – "Non-Current Assets Held for Sale & Discontinued Operations". The Group has recognized as investment property all land or land and building acquired as non-banking assets.

Non-banking assets (only land and building) are initially recognized at fair value. Since it is not intended for owner-occupied use, a depreciation charge is not raised.

25. Retirement Benefits

The Bank offers retirement benefits to its confirmed employee, mainly provident fund, gratuity and accumulated sick leave, all payable at the time of separation from service.

a. Provident fund

Provident fund is recognised at the time of contribution to the fund which is independent to the Bank.

b. Gratuity

Provision for gratuity is made on the basis of actuarial valuation carried out by an Actuary as per the provisions of Nepal Accounting Standards. At the time of

separation from service, cash payments are made to the employees and the amount is computed as per the Bank's Policy.

c. Accumulated sick leave

Provision for accumulated sick leave is made on the basis of actuarial valuation carried out by an Actuary as per the provisions of Nepal Accounting Standards. At the time of separation from service, cash payments are made to the employees and the amount is computed as per the Bank's Policy.

d. Accumulated home leave

Provision for accumulated home leave is made on the basis of actuarial valuation carried out by an Actuary as per the provisions of Nepal Accounting Standards. At the time of separation from service or eligible accumulated leaves, cash payments are made to the employees and the amount is computed as per the Bank's Policy.

26. Operating Lease

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor, are classified as operating leases. The bank has applied NFRS 16 – "Leases". The Operating lease ROU assets and lease liabilities are included in Property, Plant and Equipment and other liabilities respectively.

27. Income Tax

a. Current Income Tax

Provision for current income tax is made in accordance with the provisions of the prevailing Income Tax Act, 2058 and Rules framed there under.

b. Deferred Tax

Deferred tax is recognised on the differences between the carrying amount of assets and liabilities in the financial statements and corresponding tax bases used in the computation provided on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined by using tax rates (and laws) that have been enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled. Deferred tax assets are recognised where it is probable that future taxable profit will be available against which the temporary differences can be utilised. Deferred tax related to temporary differences in opening balances is credited or charged directly to equity and subsequent year differences are recognised in the income statement together with the deferred gain or loss.

28. Share capital and reserves

The Bank applies NAS 32, Financial Instruments: Presentation, to determine whether funding is either a financial liability (debt) or equity. Issued financial instruments or their components are classified as liabilities if the contractual arrangement results in the bank having a present obligation to either deliver cash or another financial asset, or a variable number of equity shares, to the holder of the instrument.

29. Stationery

Stationery purchased are stated at cost and charged to revenue at the time of consumption.

30. Provisions, Contingent Liabilities and Contingent Assets

The Bank creates a provision when there is a present obligation as a result of past events that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are not recognised in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an economic benefit will arise, the asset and related income are recognised in the period in which the change occurs.

31. Earnings Per Share

Basic earnings per equity share is computed in accordance with NAS 33–Earnings per share by dividing net profit after tax by the weighted average number of equity shares outstanding during the year. For Group basic earnings per share profit or loss attributable to ordinary equity holders of the parent entity has been considered.

In a capitalisation or bonus issue, ordinary shares are issued to existing shareholders for no additional consideration. Therefore, the number of ordinary shares outstanding is increased without an increase in resources. The number of ordinary shares outstanding before the event is adjusted for the proportionate change in the number of ordinary shares outstanding as if the event had occurred at the beginning of the earliest period presented.

32. Rounding off and Comparative Figures

The financial statements are presented in Nepalese Rupees, rounded off to the nearest thousand. Previous year's figures have been reclassified wherever

necessary in order to facilitate comparison. The figures reported in interim financial report are subject to change upon otherwise instructions of statutory auditor and/or regulatory authorities.

33. Segment Information

The Bank is organised for management and reporting purposes into segments such as: Retail, SME & MSME, Corporate, Deprived, Treasury and Others. The Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Income tax is managed on a group basis and are not allocated to operating segments. All transactions between segments are conducted on an arm's length basis, with inter-segment revenue and costs being eliminated in "Others". Support costs are also allocated to Retail, Corporate, SME & MSME, Deprived, Treasury and others based on Management's estimates of the benefits accruing to these segments for the costs incurred. The summarized segmental performance is given below:

a. Information about reporting segment:

NPR in Mio.
